Disclaimer

Prior to reviewing this report, please see the following quote from a CARL published report¹: *“Every effort has been made to ensure that the information in this publication is accurate. Nevertheless, limitations exist as regards the reported data. Definitions, collection and reporting methods may vary amongst institutions. Conclusions and comparisons should be made only in conjunction with other assessment methods and with due regard to different organizational structures, goals, priorities and practices.”*

Overview

The [University Library Assessment Program](#) at the University of Saskatchewan (USask) provides a wealth of information to help understand client needs and the overall effectiveness of the library; determine trends and benchmark versus our peers; assess progress toward [strategic commitments](#); and demonstrate library value to the University community.

Aligned with the library’s strategic planning process, the University Library's assessment program has three broad purposes (quality improvement, quality assurance, and accountability) and consists of four major components (library data and statistics, library surveys, key performance indicators and benchmarking, and other assessment related activities).

On an annual basis, the University Library submits data to the Canadian Association of Research Libraries (CARL) along with all other CARL member libraries. This includes data on library expenditures, establishment, and collections; library salary expenditures; overall library expenditures; library personnel; library use, facilities, and services; library document delivery traffic; emerging trends in the library; and university enrolment.

USask is part of a select group of 15 research-intensive universities in Canada known as the [U15 Group of Canadian Research Universities](#). The annual publication of CARL statistics allows the University Library to track progress over time and benchmark with our U15 peer institutions².

This report represents the University Library’s analysis of CARL Statistics 2018-19¹ summarizing the results for USask versus U15 peers and demonstrates our commitment to move beyond submitting annual library statistics to analyzing and using published results to determine trends and benchmark to our U15 peers.

CARL Indicators⁴

CARL releases an annual publication of library statistics for all member libraries related to staffing, expenditures, collections, and the use of facilities⁵. Statistics are available for the following indicators.

Library Expenditures, Establishment, and Collections

Titles held; one-time resource purchases; ongoing resource purchases; collection support; total expenditures for library materials

Library Salary Expenditures

Salaries and wages for professional, support, and casual staff; total salaries and wages; fringe benefits

Overall Library Expenditures

Total expenditures for library materials; total salaries and wages; other operating expenditures; total library expenditures

Library Personnel

Librarians; other professionals; total professionals; support staff; casual staff; total staff

Library Use, Facilities, and Services

Electronic Resources: logins to and queries in databases or services; full-text article requests

Collections Use: initial loans

Library instruction and facilities: presentations to groups; participants in group presentations; reference transactions; turnstile count; number of seats

Library Document Delivery Traffic

Total items loaned to other libraries (plus total requests for loans received from other libraries; originals loaned to other libraries; copies loaned to other libraries)

Total items borrowed from other libraries (plus total requests for borrowing sent to other libraries; originals borrowed from other libraries; copies borrowed from other libraries)

Emerging Trends in the Library

Archives and Special Collections: manuscripts and archives (linear metres); expenditures related to these collections

Digital Collections: digital objects; size of digital files; items in the institutional repository; articles; theses and dissertations; other items

E-Publishing: Author's Fees Fund (grants awarded; total amount of funds awarded; percent of fund dedicated to open access publishing)

University Enrollment

Undergraduate FTE; graduate FTE; total enrolment FTE

⁴ Results not shown for the following CARL indicators due to lack of USask and/or peer data and/or consistency issues with data collected: electronic resources (logins to and queries in databases or services); digital collections (articles; other items); e-publishing author's fees fund (grants awarded; total amount of funds awarded; percent of fund dedicated to open access publishing)

CARL Ratios and Additional Ratios

Using data from the indicators listed on the previous page, the following ratios were calculated to help provide a picture of the library at USask versus peer institutions.

CARL Ratios – based on published CARL ratios:

- Ratio of Library Personnel to University Enrolment
- Ratio of Material Expenditures and Library Expenditures to University Expenditures
- Ratio of Material Expenditures and Library Holdings to University Enrolment
- Interlibrary Loan and Document Delivery, Total Borrowing to University Enrolment
- Total Circulation Transactions to University Enrolment
- Total Informational Transactions to University Enrolment

Additional Ratios – based on published Association of Research Libraries (ARL) ratios:

- Professional Staff as a percent of Total Staff
- Support Staff as a percent of Total Staff
- Casual Staff as a percent of Total Staff
- Ratio of Professional to Support Staff (excluding Casual Staff)
- Ratio of Items Loaned to Items Borrowed
- Total Library Materials Expenditures as a percent of Total Library Expenditures
- Salary and Wages Expenditures as a percent of Total Library Expenditures
- Other Operating Expenditures as a percent of Total Library Expenditures
- Library Expenditures per Total Enrolment (FTE)
- Library Expenditures per Undergraduate Students (FTE)
- Library Expenditures per Graduate Students (FTE)

Results: CARL Graphs (2018-19)

The following graphs illustrate 2018-19 CARL ratios for USask versus the U15 average.

Results: Additional Indicators (2018-19)

The following table summarizes the 2018-19 USask CARL results compared to 2017-18 (including % change) and to the U15 average (2018-19). The overall USask ranking among U15 peers is also shown for each indicator. The graphs in Appendix A illustrate USask results compared to the U15 average for each CARL indicator from 2015-16 to 2018-19. The graphs in Appendix B show USask results/ranking among U15 peers for 2017-18 and 2018-19 for each CARL indicator.
